I hate to see this kind of propaganda knowing very well your country can't sustain this war if the US and the European has not come to the rescue of your country
Now your people is paying the highest price for defender the interest that will never profite them No matter the weapon you will be given you will never win this war
Why continue sacrifice your innocent people and army for the course you know you can't never achieved

Very sad indeed and terrible to see how ukrainians and russians, which are brotherly nations, are put against each other. This is how the western agression works. Ukraina may now bleed. US reached their goal. NATO expanded toward Russia for many years ago until they litteraly (via the sacrificing lamb-Ukraina) knock on the Russian door.

On their turn, Russia tried for many years to get normal relationship with the western world but the western world is/was never interested in it. The only thing they are interested is to control the whole world. Now is Russia, tomorrow will be China and all of us know that very clear but nobody want to appoint where comes the evil from.

An interesting way to prepare for war by starting the celebration the Day of Unity. I believe that your leader certainly knows that Russia is not going to attack. The Russian authorities have already announced 100,500 times that they will not attack Ukraine. So far, this is what is happening.

Eines sollten wir uns aber auf keinen Fall einreden lassen: Dass "der Russe" oder "Putin", sobald er mit der Eroberung der Ukraine fertig ist, sich die nächsten in der Reihe einverleiben wird: das Baltikum, Polen, dann Tschechien, Ungarn und schliesslich Österreich, Deutschland und die Schweiz. Das ist pure Angstmacherei, Kriegstreiberei und völlig am Thema vorbei.
