Russia already won against NATO in Ukraine.

In 6 months it took 50% of its Russian speaking territory with much smaller army force than Ukraine has. it will take the rest now.

The bankrupt EU should try to settle for peace and stop financing a war.

Settle for peace.

NATO, stop trying to manipulate people in Eastern Europe as slaves to fight your battles.

Stop trying to manipulate the news in Eastern Europe, all these fake news in Eastern Europe are nothing but hatred of people against people.

Stop trying to turn Eastern Europe into another Afghanistan.

The solution is very easy and natural. It is called peace and it must include disbanding of NATO in Europe, and all its criminal contracts.

The way forwards includes partnership and peace with Russia ASAP.
